Experience

2022 - Present

CollegeDekho | Gurugram

Software Developer

During my tenure, I worked on several projects based on NextJs, ReactJs, NodeJs, ExpressJs, MongoDB, Sass, MUI and Ant Design.

Additionally, I made valuable contributions to the development of a Lead Management System, Finflow Dashboard, and the Collegedekho web platform. Currently, I am actively engaged in the development of PrepBytes and GetMyUni web projects.

2021 - 2022

PrepBytes | Gurugram

MERN Stack Developer

During my internship, I had the opportunity to contribute as a MERN Stack developer, focusing on building responsive and dynamic websites and dashboards.

Working with cutting-edge technologies like ReactJs, Material UI, Redux, NodeJs, ExpressJs, and MongoDB, I showcased my expertise in both frontend and backend development. By leveraging these tools, I successfully delivered projects that met the highest standards of performance and user experience.
